- Neyveli, Cuddalore, Tamil Nadu

EDUCATION

UG

Panimalar Engineering College, Chennai

Year: 2023-2027

CGPA: 9.07

HSC

St. Joseph Of Cluny Mat Hr Sec School

Year: 2022-2023

90%

TECHNICAL SKILLS

Languages:

Backend: Java, SpringBoot, APIs, C, Python, DSA

Frontend: HTML, CSS, JS

Database: SQLite, MySQL

Tools & Platforms: VS Code, GitHub, Eclipse

- Full Stack Development
- AI Tools
- UI UX Design
- Cybersecurity

LANGUAGES

- English (Proficient)
- Tamil (Fluent)
- Hindi (Intermediate)
- Korean (Basics)

HOBBIES

- Blogging new tech tools, frameworks and trends
- Practicing global accents for communication knowledge
- Competitive programming
- Reading articles and fiction books

PROFILE

Adaptable and proactive professional determined to make a difference by using logical problem-solving skills, interpersonal proficiency and a teamwork mentality. Dedicated to come up with effective solutions and creating healthy workplace conditions.

PROJECT WORKS

1. MediTrack - Smart Medication & Health Monitoring System:

Feb 2025

Problem: Medication non-adherence & lack of real-time health visibility for elderly patients and caretakers.

Tools used: Java SpringBoot, REST APIs, Arduino UNO, Virtual sensors(SpO2, BP, Jupyter Notebook).

Outcome: Built a role-based backend system enabling automated alerts, health data ingestion and adherence monitoring.

2. Online Series Streaming Platform:

Dec 2024

Problem: Absence of scalable backend-driven platform with structured content management.

Tools used: SpringBoot, REST APIs, H2/SQLite, Thymeleaf, HTML, CSS

Outcome: Delivered a full stack streaming app with CRUD APIs, search, filtering and dynamic UI rendering.

3. Pet Adoption Mobile App using Figma:

May 2024

Problem: Manual and unstructured pet adoption process es reduce dicoverability and delay successful adoptions.

Tools used: Figma, UI UX Design principles, Wireframing, High-fidelity prototyping, user flow design.

Outcome: Designed an intuitive mobile app prototype enabling pet discovery, filtering and adoption workflows with improved usability and use engagement.

INTERNSHIPS

Gained hands-on experience by actively contributing to end-to-end project execution, requirement analysis, design, implementation, integration, testing and iterative improvement across multiple real-world applications.

1. NLC India Limited, Neyveli: (2)

Jun 2025

Role: Full stack Developer Intern

Project Title: Development of Web Portal For NLC India Hospital

Duration: 2 weeks

Built a web-based IHMS portal with secure authentication and request-approval workflows using HTML, CSS, PHP and MySQL, improving data organization and operational efficiency, tested in a WAMP/XAMPP environment.

Project Title: A Streaming Web Platform

Dec 2024

Duration: 2 weeks

Built a full stack streaming web platform using Java, SprinBoot, REST APIs, Thymeleaf and H2 enabling dynamic content delivery, genre-based filtering and trailer-viewing, developed and tested locally using Maven, VS Code and H2 Console.

2. Infomatronics Services, Chennai: (2)

July 2024

Role: UI UX Design Intern

Project Title: Pet Adoption Mobile App

Duration: 2 weeks

Designed a Figma-based pet adoption mobile app prototype with structured user flows, enabling smooth transition from UI/UX design to backend implementation.

STRENGTH

- Possess professional communication
- Analytical & logical thinker, Structured problem-solving
- High learning agility & adaptable
- Smart worker & time-disciplined
- Stress resilient & optimistic person
- Detail-oriented & proactive
- Public speaking

ACTIVIST AS

- IEEE Member
- App Development Club
- Cybersecurity Club

ACADEMICS

- Focused and goal-oriented
- Crave to showcase the best in me
- Prefer quality over quantity
- Efficient Time Managing person
- CGPA: 9.07

3. Elewayte, Bangalore:

Jun 2023

Role: Java Developer Intern

Project Title: Smart Appointment & Queue Management System

Duration: 1 month

Developed a java-based Smart appointment and queue management system to optimize scheduling and reduce wait times, implementing slot allocation, status tracking and database-backed CRUD operations using core java, JDBC and MySQL.

CERTIFICATIONS

- **NASSCOM FutureSkills prime Certifications:**
 1. AWS Cloud Practitioner Essentials(gold)
 2. Cybersecurity Analysis & Design (gold)
 3. Acquiring Data (silver)
- **Badges:** SQL Fundamentals by Accenture, DSA by by Accenture
- Oracle Generative AI Professional
- TCS Group Discussion Skills
- TCS Applied Cloud Computing
- Microsoft Azure Certification
- UI UX Certification
- GUVI SAWIT GenAI Course
- GUVI Python Certification
- **NPTEL Certifications:**
 - Programming in Java - 67%
 - Introduction to Machine Learning - 58%
- AWS Cloud Technical Essentials - Coursera
- Microsoft Azure - Intellipaat

WORKSHOPS

- Java & backend development - College of Engineering (online - live)
Duration: 2 days
Hands-on exposure core java OOP concepts, exception handling and JDBC basics.
- Full Stack Development - Skills Development Program
Duration: 5 days
Covered frontend technologies and backend integration concepts.

KEY ACHIEVEMENTS

- **Competitions and Presentations:**
Actively participated in Hackathons like SIH, Adobe, Flipkart
- **Paper Presentations:**
 - Intercollege and Intracollege Events** - SRMIST Vadapalani, Chennai
 - PECTEAM Conferences(3):** Panimalar Engineering College, Chennai - Smart Home Automation, Fitness Tracking App
 - **Poster Contests** - AI in 2030 Digital Poster
 - **Papers:**
 - Shortlisted at CHRIST College, Bangalore - Conference paper work on Crypto Currency Price Predictor
 - Paper work in SRMIST, Vadapalani, Chennai - Smart Garbage Collection using IoT Sensors
 - Paper work in Panimalar Engineering College, Chennai - ThreatSight Adaptive GANShield using Attention Mechanism and GANs
 - **Project Development Ideas:** AI Chatbot for College Queries

SOFT SKILLS:

- Strong Communication skills (APTIS ESOL Candidate with above 80% score)
- Leadership & Team Coordination - Ability to manage conflicts in team, guided peers during project development.
- Playing role as an Activist: Active member in Clubs and Committees
- Debugging mindset - Ability to find and fix the root cause through systematic testing.
